# Welcome to the School of Culture

We combine creativity and fantasy with classes in singing, music, art, theater and show

*Here you get the possibility to make dreams and life projects come true*

# The School of Culture

Here we combine creativity and fantasy with singing, music, rhythm, art, theater and show. The School of Culture is a place to meet for young people aged between 4 to 19. Here we give them the chance to make dreams and life projects come true.

We offer a sparetime of fun and learning and maybe even the start of a life long passion.
